(a) Includes the domestic production and sale of flat-rolled steel mill products including semi finished, sheet, plate and tin mill products, the production and sale of iron ore (taconite pellets), and all domestic coke operations.

(b) Includes the production and sale of steel mill products and coke from operations located in the Slovak Republic.

(c) Includes the domestic production and sale of seamless and electric resistance welded (ERW) tubular steel mill products.

(d) Includes railway and barge transportation services; engineering and consulting services; real estate activities.

(e) 2015 amounts have been revised to correct a prior period error that resulted in an adjustment to capital expenditures.

(f) EBIT and EBITDA amounts were adjusted due to the retrospective application of accounting standards update 2017-07, "Compensation-Retirement Benefits" that was effective January 1, 2018.

(g) Fourth quarter 2018 Flat-rolled earnings includes an out-of-quarter adjustment of \$7 million; full year 2018 was not adjusted.

\* Calculated Cost per ton is average price per ton minus EBIT per ton

\*\* Calculated Sales represent revenues from the sale of steel products only and is calculated as shipments times average realized price per ton.

\*\*\* Net Sales includes sales of steel, steel production by-products, coke and coke by-products, iron ore pellets, and intersegment sales.

(a) Excludes intersegment transfers.

(b) EBIT and EBITDA amounts were adjusted due to the retrospective application of accounting standards update 2017-07, "Compensation-Retirement Benefits" that was effective January 1, 2018.

(c) Between January 1, 2015 and September 30, 2015 annual raw steel capability was 19.4 million net tons.

Starting October 1, 2015 annual raw steel capability is 17.0 million net tons. The denominator of the utilization includes any idled blast furnaces, if applicable at the time.

\* Calculated Cost per ton is average price per ton minus EBIT per ton

\*\* Calculated Sales represent revenues from the sale of tubular products only and is calculated as shipments times average realized price per ton.

\*\*\* Net Sales above includes sales of tubular products, tubular production by-products, and intersegment sales.

(a) Excludes intersegment transfers.

(b) EBIT and EBITDA amounts were adjusted due to the retrospective application of accounting standards update 2017-07, "Compensation-Retirement Benefits" that was effective January 1, 2018.

(c) The Fairfield Electric Arc Furnace commenced operation in October 2020. The new 1.6 million ton electric arc furnace is currently used to feed our 0.9 million ton rounds caster.

As a result, the Tubular segment now has annual raw steel production capability of 0.9 million tons. The 2020 production as a % of total capability amount is based on an October 1, 2020 start date.
