

U. S. Steel is proud to partner with suppliers in our communities across the country. We believe our business thrives when we are actively engaged and involved in the communities where we make steel.

Across America, we are committed to positively impacting the communities that we call home, to enhancing and improving quality of life in those communities, and to supporting projects and opportunities that advance safety, education and environmental stewardship.

**We wouldn't be U. S. Steel without you.**

Together, Nippon Steel and U. S. Steel are moving forward as the ‘Best Steelmaker with World-Leading Capabilities’. The partnership will protect and create more than 100,000 jobs through unprecedented massive investments in steelmaking in the United States that will be unleashed across U. S. Steel’s footprints, including in Pennsylvania, Indiana, Arkansas, Minnesota and Alabama. This partnership ensures that U. S. Steel will continue to be Mined, Melted, and Made in America for generations to come.

## ENVIRONMENTAL EXCELLENCE

As the Senior Director of Environmental, Alexis Piscitelli, ensures protection of the community she calls home. For Alexis, safety is first and environmental excellence is "right there with safety—like 1 and 1a."

## PROUD PARTNER

U. S. Steel joined members of the Pittsburgh Penguins ownership team, Pennsylvania Lt. Gov. Austin Davis, and numerous local and community leaders to celebrate the grand reopening of the Braddock Carnegie Library, now Carnegie One.

The celebration took place just blocks from our Mon Valley Works – Edgar Thomson Plant, Andrew Carnegie’s first steel plant. Carnegie One represents another historic first for the steel magnate and philanthropist: It was his first public library in the United States.

[Watch this video](#) to hear what U. S. Steel President & CEO Dave Burritt, who served as capital campaign co-chair alongside NHL Hall of Famer and former Pens great Bryan Trottier, said about the reopening’s significance to the Pittsburgh region.

“Carnegie believed that libraries should be places where people come together to learn, grow, and build a better future. At U. S. Steel, we’re thrilled to carry that legacy forward,” Dave said. “This library is a reminder that knowledge is one of our greatest strengths. Lifelong learning opens doors, creates opportunities, and helps communities thrive. We’re honored to support a resource that will continue to inspire and empower generations to come.”

### About the Space:

The 45,000-square-foot space has been transformed into a fully accessible and revitalized community hub after a \$21 million, multi-year renovation that included a \$1 million investment from U. S. Steel. Improvements include full ADA accessibility across all four floors and versatile gathering and learning spaces for our U. S. Steel colleagues and neighbors in Braddock, North Braddock, East Pittsburgh, Turtle Creek, and Chalfant.

### S.T.E.E.L. Principles in Action:

Our \$1 million investment exemplifies our S.T.E.E.L. Principles in action: creating safe community spaces, honoring our shared heritage through sustainable renovation, meeting our commitments to community development, and supporting the needs of our Mon Valley employees and their families.

### Legacy:

U. S. Steel’s involvement in this project also highlights that our legacy in Braddock, Pennsylvania, is about more than steel—it’s about the people and communities who make our company what it is today. This project will help shape opportunities for the next generation, including residents who may one day become U. S. Steel employees. In the region where our story began when Carnegie opened his first steel mill in 1875 and where it continues to unfold through our ongoing commitment to community, this project marks an important new chapter.

The Memorial Day weekend tradition roared to life as BRS-sponsored teams dominated the Lucas Oil Late Model Dirt Series in Wheatland, Missouri.

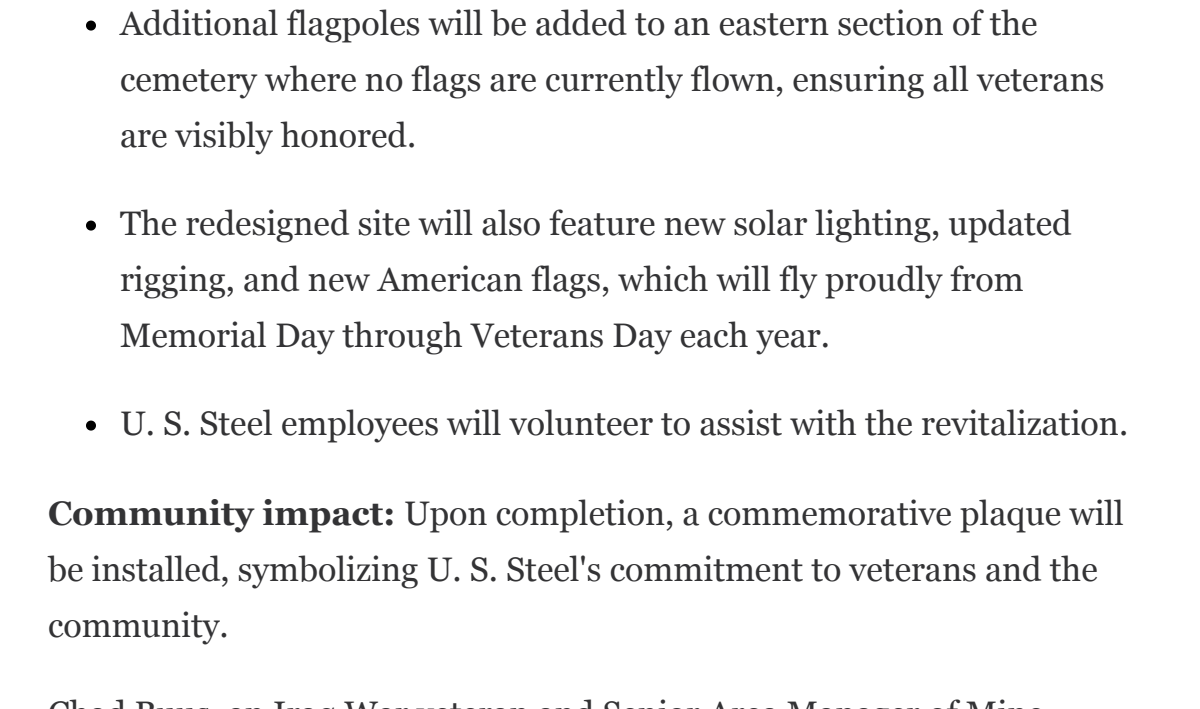

**Why it matters:** This iconic Show Me 100 weekend showcased the strength and skill of the Big River Steel (BRS) teams, solidifying their position in the racing community.

**The latest:**

- **Thursday Night:** The Big River Steel-sponsored teams dominated the track with Hudson O’Neal taking 1st place and Devin Moran securing 2nd.
- **Friday Night:** Hudson O’Neal claimed another victory in the SSI Motorsports #71, while Devin Moran and the #99 Double Down Motorsports team finished strong in 5th.
- **Saturday Night – Show Me 100 (\$75,000 to win):** BRS-sponsored teams wrapped up the weekend with impressive 3rd and 4th place finishes.

**What’s next:** As they leave Missouri, Devin Moran sits 3rd and Hudson O’Neal 4th in the series point standings, aiming for the top in upcoming races.

## GOOD NEIGHBOR

On May 22, U. S. Steel took a meaningful step in honoring military veterans by presenting a \$65,000 donation to the Hibbing-Chisholm Beyond the Yellow Ribbon (BTYR) Committee. The ceremonial check presentation took place during a BTYR annual Veterans Resource Fair, an event that brings together organizations dedicated to supporting Minnesota veterans and their families.

The donation supports the “Honor and Restore” project at the Maple Hill Cemetery in Hibbing, which is helping to revitalize the veterans’ sections of the cemetery that are currently the final resting place for more than 1,000 local veterans.

**Why it matters:** This donation supports revitalization work at Maple Hill Cemetery, ensuring the veterans’ sections are properly honored.

- Existing flagpoles – some cracked, leaning, and beyond repair – will be replaced.
- Additional flagpoles will be added to an eastern section of the cemetery where no flags are currently flown, ensuring all veterans are visibly honored.
- The redesigned site will also feature new solar lighting, updated rigging, and new American flags, which will fly proudly from Memorial Day through Veterans Day each year.
- U. S. Steel employees will volunteer to assist with the revitalization.

**Community impact:** Upon completion, a commemorative plaque will be installed, symbolizing U. S. Steel’s commitment to veterans and the community.

Chad Buus, an Iraq War veteran and Senior Area Manager of Mine Maintenance, delivered remarks at the event, emphasizing the company’s dedication to supporting veterans.

“I’m very grateful to all the men and women who have donned the uniform and answered the call of duty,” said Chad. “I’m also thankful to work for a company that supports the armed forces, veterans, and the communities in which we operate. We have a mission to reach, honor and serve all those who have or are serving. I’m glad we could play a role in honoring our troops’ eternal resting spot.”

**Honoring commitment:** This support is part of U. S. Steel’s commitment to veterans and military families, including those in its own ranks. In 2024, U. S. Steel was officially designated as a Beyond the Yellow Ribbon company, a statewide recognition that highlights employers with the support structures in place to assist service members transitioning into civilian roles and employees affected by military commitments.
