

# Environmental Policy

U.S. Steel Lorain Tubular Operation's environmental goal is to minimize adverse impacts to air, water and land as a result of our activities, products and services associated with the manufacturing of steel pipe through pollution prevention. To accomplish this, Lorain Tubular Operation's commits to:

**Comply** with applicable environmental laws, regulations and other requirements. Preventive measures to improve environmental compliance are reviewed for relevance, and if applicable, implemented and evaluated for effectiveness.

**Improve** our environmental performance through programs that incorporate responsible environmental management practices and through annual management reviews of our Environmental Management System, including periodic review of our environmental objectives and targets.

**Train** and educate employees to conduct their activities in an environmentally responsible manner. Protecting our environment is everyone's responsibility.

**Evaluate** environmental impacts of proposed actions, including process and practice changes.

Please see Form 4.2A for a list of Policy locations
