

USS GRANITE CITY WORKS ENVIRONMENTAL POLICY

COMPLIANCE - PREVENTION of POLLUTION - CONTINUAL IMPROVEMENT

It is Granite City Works' policy to conduct its operations in a manner that is protective of human health and the environment and to include environmental management as a factor in business decisions. Accordingly, with the full approval of Granite City Works' Management, Granite City Works is hereby committed to:

- Fully complying with all applicable federal, state, and local environmental statutory and regulatory requirements, applicable permit requirements, and any other applicable environmental requirements.
- Promoting awareness among all Granite City Works employees of Granite City Works' policy to conduct work and/or activities in an environmentally responsible manner.
- Evaluating and, when practicable, incorporating the use of processes, practices, materials, and/or products into Granite City Works' operations to avoid, reduce, and/or control pollution.
- Setting, regularly reviewing, and updating environmental objectives.
- Making Granite City Works' Environmental Policy available to any members of the public upon request.
- Continually reviewing and improving Granite City Works' Environmental Management System.

*Approved & Supported by Granite City Works' Top Management
(reviewed annually through management review)*

Effective Date: 05/25/2006
