

U. S. Steel is proud to partner with suppliers in our communities across the country. We believe our business thrives when we are actively engaged and involved in the communities where we make steel.

Across America, we are committed to positively impacting the communities that we call home, to enhancing and improving quality of life in those communities, and to supporting projects and opportunities that advance safety, education and environmental stewardship.

We wouldn't be U. S. Steel without you.

Forged in Compassion: Supporting the U. S. Steel Families

[The Salvation Army of Western Pennsylvania](#) is in partnership with U. S. Steel to collect donations on behalf of the families directly impacted by the explosion at the Clairton Coke Plant that occurred on Monday, August 11, 2025.

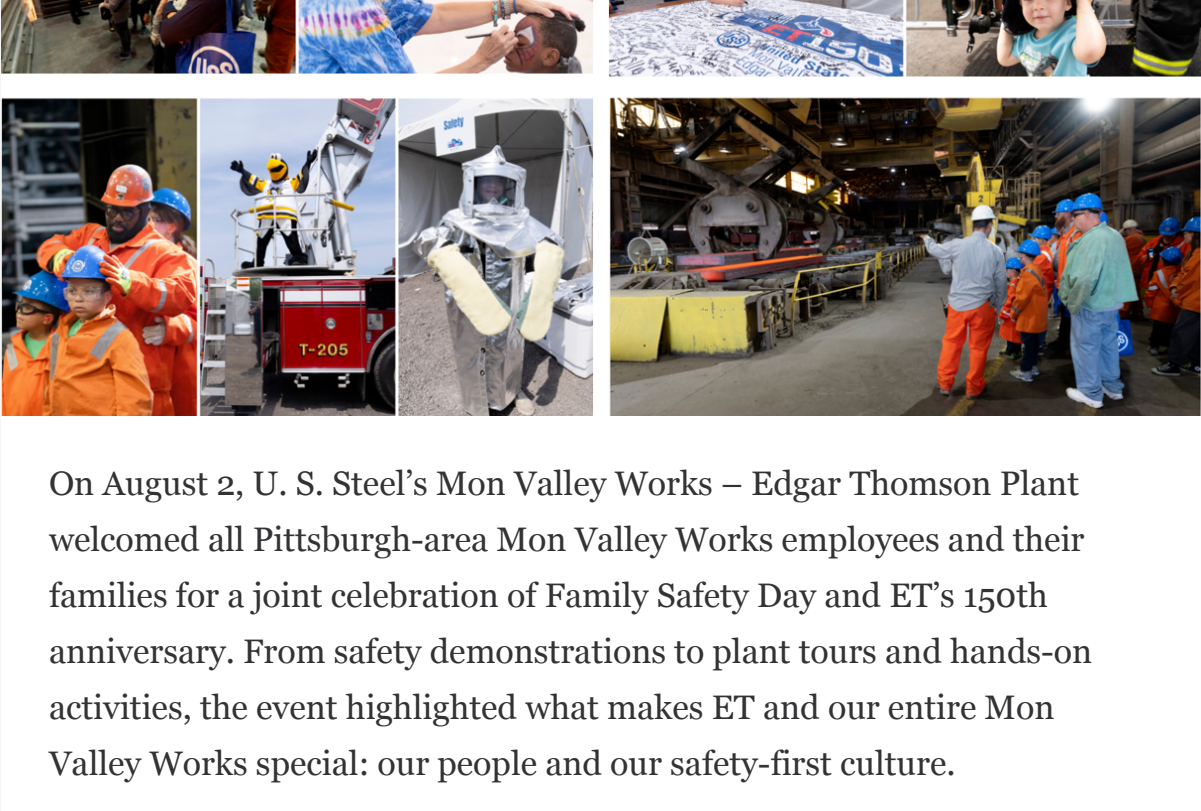

“Our hearts break for the families touched by this tragedy,” Major Marcus Jugenheimer, Divisional Commander of The Salvation Army of Western Pennsylvania said. “Our community has already shown we are truly stronger together. The Salvation Army will continue to be here for those impacted and we are grateful for this opportunity to provide vital support.”

The community can visit [salvationarmywpa.org/steel](#) or text the word “steel” to 31333 to make a monetary donation, 100 percent of which will be used to support the immediate families of the deceased as well as those who suffered significant injuries and were or remain hospitalized. Donations for this fundraiser will be collected up until September 30, 2025, and all donations will be managed by The Salvation Army. Donations made after September 30 will go directly to The Salvation Army Emergency Disaster Services Equip the Frontlines campaign, a program that serves first responders and survivors of disasters throughout 28 counties in Western Pennsylvania.

“While U. S. Steel is directly supporting those impacted, our communities have asked what they can do to help,” said Heidi Chappell, Head of Community Engagement. “For more than a century, The Salvation Army has proven to be a trusted source of hope in our community,” Chappell added. “Our communities are generous, and we are grateful The Salvation Army can collect donations securely to ensure those impacted receive the support they need.”

[The Salvation Army Emergency Disaster Services \(EDS\)](#) was on the scene of the explosion at Clairton Coke Plant, providing water, food and other support to first responders, plant personnel and other partner agencies. The Salvation Army deployed multiple canteens (mobile response vehicles) equipped with volunteers and staff. Thanks to support from corporate and community partners, The Salvation Army provided 650 meals, 500 bottles of water, 350 snack items, 850 drinks of various types and other recovery items.

In times of disaster, The Salvation Army Equips the Frontlines, serving first responders and survivors with safe shelter, warm meals, clothing and clean-up kits, along with spiritual support. This top-notch program for disaster preparedness and response extends throughout The Salvation Army’s 28-county Western Pennsylvania service area.

On August 2, U. S. Steel's Mon Valley Works – Edgar Thomson Plant welcomed all Pittsburgh-area Mon Valley Works employees and their families for a joint celebration of Family Safety Day and ET's 150th anniversary. From safety demonstrations to plant tours and hands-on activities, the event highlighted what makes ET and our entire Mon Valley Works special: our people and our safety-first culture.

Since 1875, ET has provided family-sustaining jobs and opportunities to generations of residents. Multiply that by the jobs at our nearby Clairton and Irvin Plants and the jobs in the surrounding communities that supply all three facilities, and that's real impact and it was one of many things the Mon Valley team celebrated during the event.

Tying the ET150 celebration into a Family Safety Day also gave employees the chance to show their families where they work and how their collaboration with each other and our company every day ensures safety remains everyone's top priority so everyone can return home the same way they arrived.

U. S. Steel's Mon Valley Works – Edgar Thomson Plant is more than a historic mill. It's a place where generations of families have built their futures, passed down traditions, and strengthened communities.

As part of our ET150 and Family Safety Day celebration, we shared the stories of two local families who have spent decades working at the plant: the Yezovich family (Steve, Stephen and Mark) and the Moutz family (Bill, Sr. and Bill, Jr.). Their words reflect what ET has meant not just to them, but to countless families across southwestern Pennsylvania and especially in the region's Mon Valley communities.

[This video](#) is a heartfelt tribute to the people whose grit, passion, and purpose have helped carry the legacy forward for 150 years – and will continue to do so for generations to come.

As we grow stronger through our new partnership with Nippon Steel, we carry forward a legacy built on grit, ingenuity, and a deep commitment to one another that begins with our Safety First S.T.E.E.L. Principle.

Congratulations to the entire Edgar Thomson Plant team! 150 years ... and counting!

GOOD NEIGHBOR

On May 22nd, the Minnesota Ore Operations Chapter of SteelSUSTAINABILITY partnered with the Arbor Day Foundation to plant trees in Hibbing, Minnesota.

Why it matters: This initiative enhances local green spaces and contributes to long-term environmental resilience.

- Volunteers planted 8 trees including river birch, Ohio buckeye, Siena Glen maples, and Autumn Blaze maples at Cobb Cook Park and Veterans Park.

The big picture: The event demonstrated U. S. Steel's commitment to sustainability and community engagement.

- The newly planted trees will improve air quality, provide shade, and support biodiversity, benefiting both residents and the ecosystem.

What's next: U. S. Steel continues to invest in projects that support environmental goals and strengthen local communities.

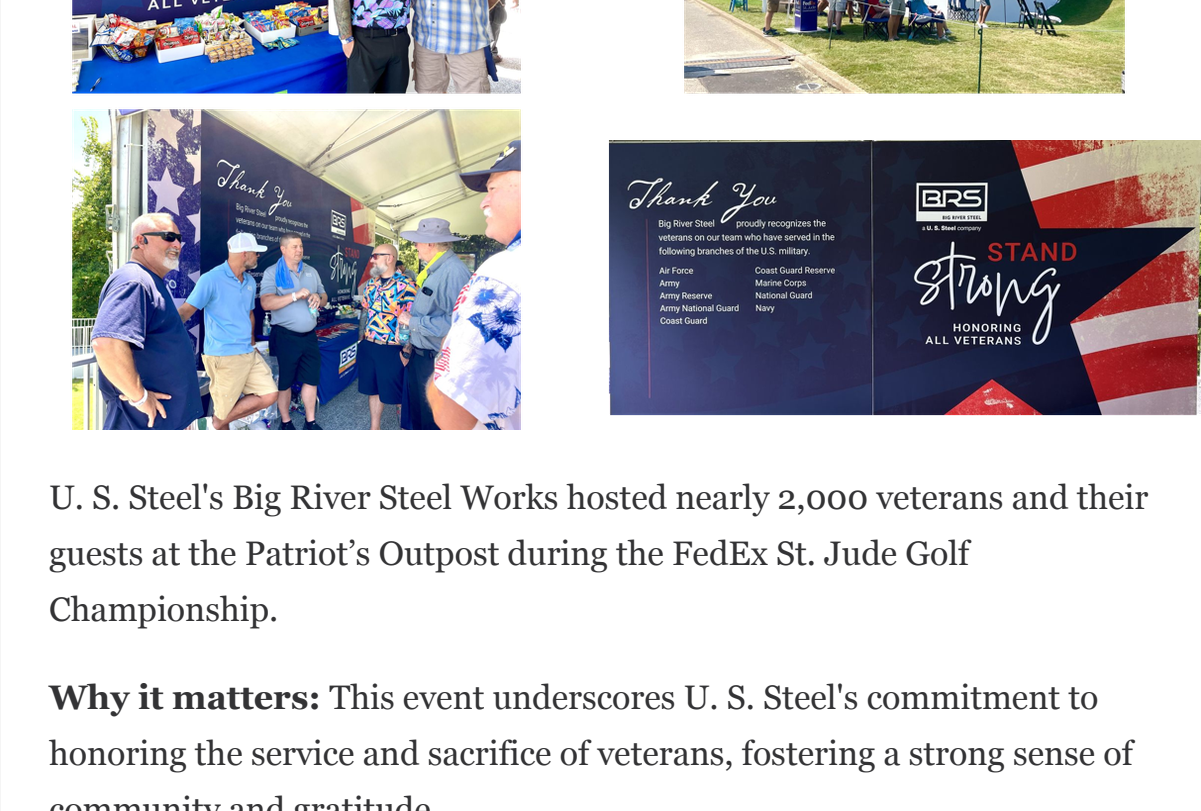

PROUD PARTNER

The 2025 Gary Air Show took flight August 9–10, transforming Marquette Park near U. S. Steel's Gary Works and Midwest Plant into a hub of excitement, food, vendors, and beachfront fun! Attendees enjoyed stunning aerial performances by the U.S Air Force Thunderbirds and more, set against the breathtaking backdrop of Lake Michigan and the Indiana Dunes.

U. S. Steel was proud to support this iconic, family-friendly event as a community partner celebrating aviation, innovation, and regional pride. From the sponsored Warbird Thunder Plane to U. S. Steel photo ops and speaker shoutouts, our presence was felt throughout the weekend.

Thank you to everyone who joined us at Marquette Park to make this celebration truly spectacular. Let's keep flying high in our communities—together.

U. S. Steel's Big River Steel Works hosted nearly 2,000 veterans and their guests at the Patriot's Outpost during the FedEx St. Jude Golf Championship.

Why it matters: This event underscores U. S. Steel's commitment to honoring the service and sacrifice of veterans, fostering a strong sense of community and gratitude.

- The Patriot's Outpost served as a dedicated space for veterans, offering shade, water, snacks, and U. S. Steel Big River swag.
- Veterans on U. S. Steel's team were present to connect and serve fellow servicemen and women.

The bottom line: Supporting those who've sacrificed for our country is a responsibility U. S. Steel holds with deep gratitude, continuing the tradition of celebrating strength and service.
