

# INDUX™

## SUSTAINABLE NGO STEELS

The time to create a better future, a better planet, a better tomorrow is now. Big River Steel is rising to the challenge with our high-quality, non-grain oriented (NGO) steels. InduX™ steel is designed to meet the ever-challenging needs of the electrical market as we work together to meet the increasing demands of electrification to help heal our planet.

### Maximum Power, Maximum Efficiency

Big River has invested in our sustainable electric-arc furnaces that melt high-grade recycled scrap to feed our state-of-the-art Compact Strip Production mill, responsibly producing the highest quality electrical steels available anywhere in the world. Using some of the best magnetic and mechanical properties to ever be produced, InduX™ steel not only meets but exceeds quality expectations.

**INDUX™ PRODUCTS CAN REDUCE CO2 EMISSIONS BY UP TO 75%**

**INDUX™ STEEL CONTAINS UP TO 90% RECYCLED STEEL CONTENT**

**INDUX™ PRODUCTS ARE 100% INFINITELY RECYCLABLE WITHOUT QUALITY DEGRADATION**
